Environment Policy

Environment Pont, Aurell y Armengol

Commitment to develop and implement an Environmental Management system to control and minimize the environmental impact of our activity.

Commitment to involve, train and hold responsible the people who make up the Organization so that they respect, share and apply the Environmental Management System, whether they are workers, suppliers or subcontractors.

Objectives Pont, Aurell y Armengol

The General Management is committed to define Environmental Objectives consistent with this Policy and to periodically review the system to guarantee its effectiveness.

To do this, all significant environmental aspects and their impacts must be considered from a life cycle perspective and taking into account the end-of-life of the product.

Protection Pont, Aurell y Armengol

Promote the development of activities to cause the minimum environmental impact, as well as prevent, control and minimize the risks of environmental contamination that our activity generates on its environment.

Carry out responsible consumption and management of natural resources, have sustainable management of air and water quality, promote energy efficiency, prioritize the reuse and recovery of waste, minimize the use of hazardous products and efficient control of GHG emissions.

Compliance Pont, Aurell y Armengol

Comply with the Environmental Legislation and Regulations applicable to the activities, products and services, as well as other commitments that the company voluntarily subscribes to.

Continuous Improvement Pont, Aurell y Armengol

The General Management is committed to providing the human, technical and organizational resources to continuously improve the effectiveness of the Environmental Management System and all the processes that interact in it, involving our suppliers and subcontractors, aimed at reducing the environmental impact of our operations, and prioritizing the use of sustainable resources and renewable energies.

The guidelines for action that emerge from the Environment Policy are reflected in the Management Systems Manual.
